DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-12 and 38-41 are rejected under 35 U.S.C. 102(b) as being anticipated by Hlvaneke.

Regarding claims 1-12 and 38-41; Hlvaneke discloses a vortex nozzle educator (40) comprising a nozzle body (44) and a vortex generator (42) inserted partway into the nozzle body (44), the vortex generator (42) including a rim (68) for engaging and capping a cylindrical wall (86) of the nozzle body (44); the nozzle body (44) and vortex generator (42) including a passageway (108) in fluid communication with a tapered passageway (94), and a plurality of tangential and normal ports (66) that inlet a flow tangentially and normal to the passageway (108) and tapered passageway (94). (see col. 3, lines 1-3 and col. 4, lines 46-59)

Response to Arguments

Applicant's arguments filed on May 8, 2003 have been fully considered but they are not persuasive.

Art Unit: 1723

The applicant's sole argument is that Hlvaneke does not disclose that his plurality of openings (66) are tangential and normal to his cylindrical bore (62). This is not persuasive because Hlvaneke's discloses on col. 3, lines 1-3 and col. 4, lines 46-59 that his plurality of openings (66) are tangential and therefore normal to his cylindrical bore and fluid passageway (62, 108).

Final Rejection

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
